REASONS FOR ALLOWANCE

Response to Amendment

The Amendment filed September 27, 2005 has been received and made of record. In response to the first Office Action, the Drawings, the Specification, and
5 claims 1, 5, 6 and 10 have been amended. Claims 2 and 7 have been cancelled.

In response to Applicant's amended Drawings, the Examiner finds the amended figure 1 to address the previous inconsistencies between the Drawings and the Specification, and therefore, the objection to the Drawings is hereby withdrawn.

In response to Applicant's amended Specification, the Examiner finds the
10 amendment directly addresses the previously objected informality regarding a co-pending application, and therefore, the objection to the Specification is hereby withdrawn.

Allowable Subject Matter

15 Claims 1, 3-6, and 8-10 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 3-4, 6, and 8-9, the prior art is not found to teach or fairly suggest, in combination with the existing elements of the present claim as currently amended, controlling the exposure time and gain of an image sensor including wherein
20 said predetermined threshold for the adjustment of exposure time is substantially a magnitude of said stable range.

Regarding claims 5 and 10, the prior art is not found to teach or fairly suggest, in combination with the existing elements of the present claim as currently amended, controlling the exposure time and gain of an image sensor including wherein the amount of increase of said gain is dependent upon the percentage decrease of exposure time
5 and the amount of decrease of said gain is dependent upon the percentage increase of exposure time.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on
10 Statement of Reasons for Allowance."
